“Flume detected a 4 gallon-per-hour leak that had been going on previously for months without me knowing it. Without Flume, I would have never caught the leak. Awesome product!”
Kurt F. - Flume Customer

FLUME Smart Water System

Many Cambria Community Service District (CCSD) residents have already taken advantage of a limited rebate on the popular Flume Smart Water System.

On average, 70% of new Flume customers found a leak in their home or garden.

If you haven't taken advantage of this opportunity to protect your home, conserve water and avoid high water bills through real-time water insights, there's still time.

Flume is one of the only systems of its kind to protect your home and monitor use both inside and outside your home. Take advantage of this limited time offer today.
