CCSD REORGANIZES TO SIMPLIFY CUSTOMER PERMIT AND INSPECTION PROCESS.

Cambria, CA---The Cambria Community Services District (CCSD) recently restructured their Administrative Department to streamline the remodel/new construction process for CCSD customers.

Effective March 30, the CCSD's water/sewer permitting, wait list, rebate, retrofit, voluntary lot merger, and conservation services were relocated from the CCSD Administrative Office to the Cambria Fire Department on Burton Drive.

According to General Manager Tammy Rudock, the move was designed primarily to eliminate the need for customers to submit duplicate plans for remodels and new construction projects and apply for permits and inspections at two different locations. "This 'one-stop shop' will make it much more convenient for our customers to process their building plans and obtain permits and inspections," says Rudock, who adds that the changes will be fine tuned during the coming months.

Cori Ryan, Administrative Tech III, will continue to provide these services to CCSD customers as well as performing administrative support to the Fire Department. Her contact information is the same: 805-927-6225 and cryan@cambriacsd.org.
