I would not like to see CCSD start down the road to building a skate park when the real cost is unknown. I think it is premature to seek a grant for a project that could wipe out the district's reserve funds.

Date: Items 3A and 3B
Saturday, November 20, 2021 11:55:54 AM

Please read my comment on Item 3B and record both in Written Comments. Thank you.'

A. Discussion and Consideration of Using Proposition 68 Per Capita Funding for the Skatepark Project

Item 3A: I strongly urge the board to use the money for the skatepark, giving the skatepark top priority, over the dog park restrooms. Please work with the well informed local advocates for the park and their experienced advisors. These inflated figures present only one perspective. The experienced designers have overcome problems at other parks. These figures, from a board that didn't blink at legal fees of nearly a quarter million dollars, with another quarter million anticipated. Fundraising for the park is gathering momentum. I am sorry to see board members and staff attempting to stop this project at this early stage.

The skatepark advocates have brought positive energy to this project and deserve every effort to bring it to fruition. A recreational project for young people addresses diversity services in this community of retirees and tourists. I look forward to watching these colorful young people at play.

B. Discussion and Consideration of Adoption of Resolution 43-2021 to Appoint a Representative from Skate Cambria to be an Ex-Officio Non-Voting Member of the PROS Commission in Accordance with CCSD Municipal Code Section 7.08.010

Item 3B: Appointing Julie Amodei to PROS as an ex officio member supports development of the skatepark. While some board members and General Manager Weigold have made their opposition clear, the advocates for the park must be given adequate opportunity to make their case. She speaks for the local SkateCambria group. With the public support that already exists for this project, PROS and the board will benefit from having direct communication with the Cambrians who want it.

Subject: Cambria skate facility
Date: Friday, November 19, 2021 10:28:14 AM

To:CCSD Board/Directors

We do not support CCSD allocating any money for the skate park project...Citizens who want this facility should procure the \$\$\$\$ estimated to be over \$ 600,000. How much over is not yet determined.Do not waste money not in pocket for recreation projects at this time.

CCSD should fund fuel removal & tree pruning both of which would assist in our village wildfire prevention. CCSD should fund sourcing additional water projects for drought and wildfire issues.

Thanks for giving us the opportunity to give our opinion.
David & Louise Boyd @ [REDACTED], Cambria.

I'm not sure if the feasibility study addressed liability insurance. If the Skate Park is constructed and maintained by the CCSD It could cost the town dearly should a skater be injured or worse killed due to some unseen flaw in construction or some less than optimal maintenance. It should be privately funded and maintained as are for example our pickleball courts.

Subject: Nov. 20 Special meeting comment
Date: Friday, November 19, 2021 11:37:48 PM

I would like to thank the CCSD board for this opportunity to share my comments regarding the skatepark on Main Street.

First and foremost I support this project and the SkateCambria adults and youth who are doing amazing work to recreate the skatepark space. I handcrafted pottery pieces and sold them over a 2 day weekend in October to raise funds for the skatepark.

I support the placement of Juli Amodei as ex officio to the PROS commission. Whenever I get to work with Juli, I am impressed with the experience, communication skills, respect, and efficiency that she brings to every task. She will be an asset to the process of meeting any challenge that comes up regarding the skatepark.

I am confused by some board members' recent concerns and questions regarding appointment of an ex officio to the PROSCommission for the skatepark project, because when the dog park was being relocated from Main Street to the rodeo grounds, the CCSD board actually recruited a community member from the dog park group and that person was placed on the CCSD board of directors.

I applauded Vice President Howell's comment on October 30 in the special meeting in which he stressed the importance of getting the project moving forward (as was also stressed by a supporter in the video presented at that meeting).

Cambria's youth are a valuable asset to our community. I, and many others, are investing in them. I encourage the board to take advantage of this opportunity to invest in them too through the Skatepark project on Main Street. Appointing Juli Amodei as ex officio will only increase the efficiency and vitality of moving the project forward.

Sincerely,
Holly Ludwigson
Homeowner and full-time resident of Cambria

I am writing to voice my family's full support of a new Cambria Skate Park being built in the current location of the old park.

We moved to Cambria in 1999 and raised two sons in that wonderful town. Our boys spent many hours with their friends at the park. We'd give them a couple bucks to walk to the General Store with their friends for a snack between skates. I strongly believe that the park helped increase their strength and coordination, helping them both to become quite athletic. Having the park in it's current location will serve to both draw families into Cambria from around the world, and will also help prevent nighttime vandalism and graffiti, as opposed to the remote location near the dog park. Cambria desperately needs to draw young families to town, both to vacation and to live. The businesses will capitalize on the visitors and town will benefit from a wave of energetic youth stepping in to get involved in making sure Cambria remains the unique and special place it currently is.

Finally, Juli Amodei is very qualified to take the project skillfully proceed to oversee the construction and operation of a park town will be proud of. I am thoroughly impressed at her professionalism in steering the project thus far.

I can not imagine how and Board member could oppose this family friendly project. Although we have moved from town, we have many friends still there who strongly support the new park. We will continue to do so, vocally and financially, from Colorado.

Thank you for the opportunity to express my family's views.

Kyle, Amby, Chance and Thor Ronemus.

Mahala sent forwarded this to me, I think she is intending it to be public comment for today's meeting. She is in the parking lot of the CDC waiting for a vaccine booster so may not have the appropriate email address to send it to.

The Cip list should be exhausted before any reserves used . The Leimert tank is beyond deferred maintenance and my neighborhood could be impacted .
Go back to the drawing board on the skate park and scale it down and move it to the east ranch.

CCSD Board of Directors,

I am unable to attend today's meeting but wanted to express my views on the Skate Park and associated funding.

First off, hats off to those advocating for the Skate Park. You have done a commendable job gathering support, communicating with the community and raising funds.

However, I do not believe the CCSD should provide funding or a commitment of funding. There are too many unknowns with the project and the CCSD does not have extra funds to allocate.

Reserves are held as security for the community to have available as unforeseen events may impact us.

Thank you,
Mary Maher

11/19/21

To Whom it may concern:

This letter is in regard to the skatepark in Combsia. I feel that it is very important to keep it centrally located.

We are an isolated community, and our young people need this very healthy form of recreation, and it is more and more becoming a competitive sport. It is also directly related to ocean surfing and is a precursor to it.

Surf boards and skate boards are directly related, and this sport should be strongly encouraged.

Sincerely →

Ruth Fleming

I can't recall if I sent in a comment yet or not! (Haven't been keeping very good track of my "to do" list!)

Please note:

I am a 41 year full-time Cambrian. I raised my family here.

I was one of the parents who started the "mobile" skatepark w/ others at the Vet's Hall Parking log and we built small ramps that came out of the storage container.

Then, we also fundraised for the quality ramps and current location. My kids are now grown but they used the skate park often when they were young.

As a 51 year SLO County resident, and a Recreation Administration major, I feel that our Cambria CCSD has not done enough for our youth (the Templeton CSD has supported a permanent skate park for example)

We should all be doing all that we can to support our youth!

I support the Main St. location, support all funding sources to be sought and feel the current group of parents will work hard to get this going.

Marcelle, Sales
