Written Public Comment:	My concern is regarding the lack of maintenance at our once beautiful Shamel park. I have noticed recently that the grass is coming back, thank goodness , I live on Bristol and my children and grandchildren have been enjoying the park for over 20 years as well as the whole community. There is not one weekend or weekday for that matter that this park is not full of children adults and pets enjoying it. Money is always an issue when it comes to public maintenance so I have a suggestion. In the past I believe some of the proceeds from our wonderful Pinedarado was used to purchase fireworks for the fourth of July festivities. Now that we are not setting off fireworks anymore can we use that money to start a fund to help keep this most used public park maintained. I have smiled over the years turning that corner and seeing families, athletic teams, pet owners, wildlife, grandparents with their grandchildren enjoying, laughing and playing at our beloved park. We have the responsibility

	to keep it safe to run barefoot on and keep the park looking beautiful. Thank you Ty Shaffer
