**Date:** July 21, 2020

**Contact:** Jimmy Tomac, Resident Engineer (805) 781-4476  
Rachel Naccarati, Project Manager (805) 781-5269

**ROADWAY SLOPE REPAIR AT SAN SIMEON CREEK ROAD MILEPOST 4.4, CAMBRIA –**

The County of San Luis Obispo Department of Public Works will be performing roadway slope repair at San Simeon Creek Road approximately 4.4 miles east of Highway 1 in Cambria. Work will begin Monday, July 27, 2020, between the hours of 7:00 a.m. and 3:30 p.m. Work will continue through the end of August.

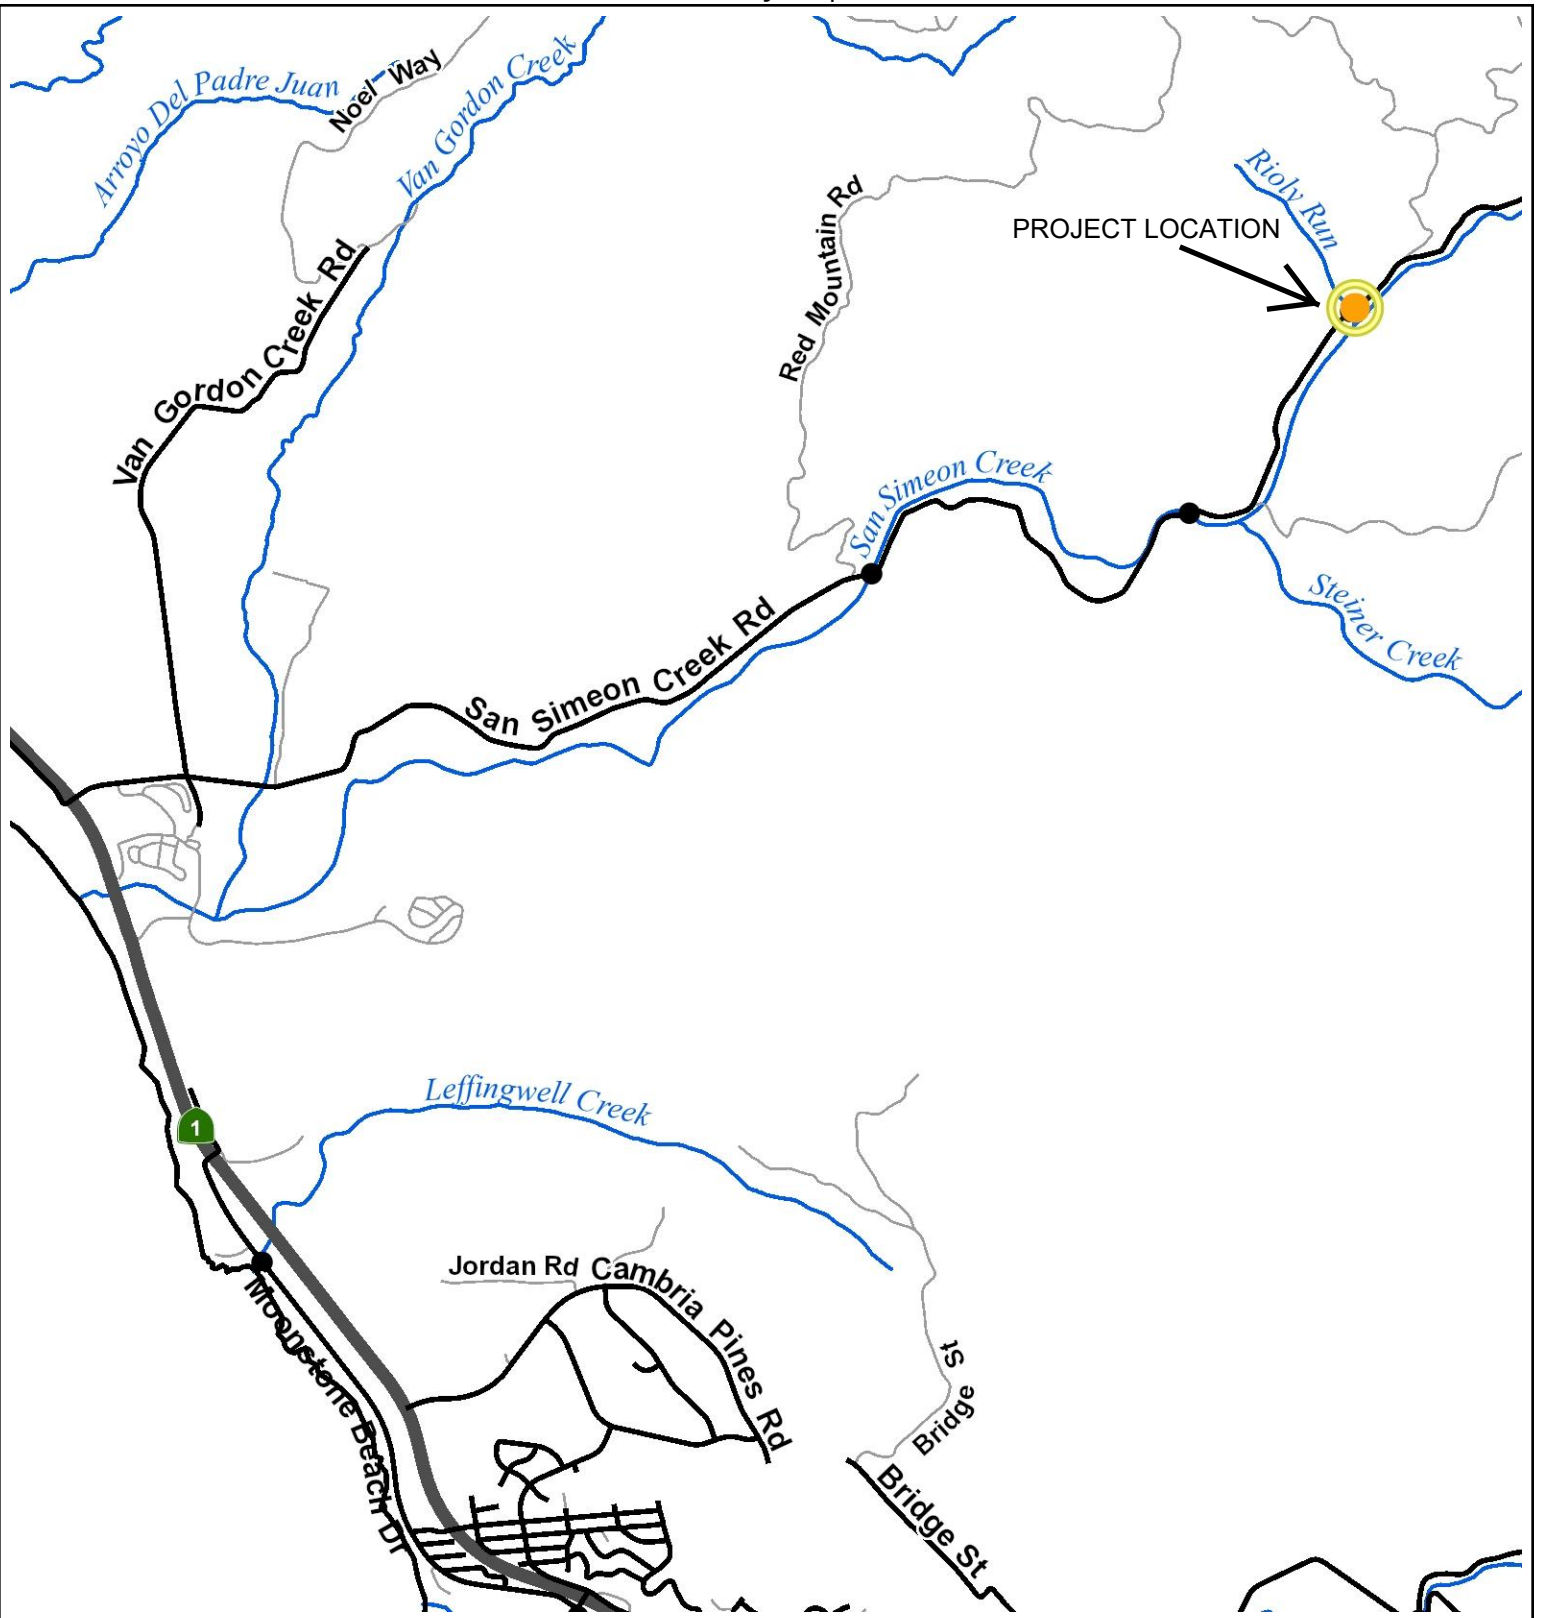

Road damage was due to a series of storms which occurred January through March 2017. The work will include reconstructing and revegetating of the failed slope embankment and repaving a section of the road.

For the safety of the public and the workers, traffic on San Simeon Creek Road will be subject to detours or one-way controls with flaggers as required for each phase of the work. Motorists are advised to adjust their travel plans due to delays and consider alternate routes. Please refer to the attached map for specific location.

David Crye General Engineering Contractor, Inc. of Morro Bay, has been awarded the contract to perform the work in the amount of \$77,862. The project is funded by San Luis Obispo County Road Maintenance funds and is partially reimbursed by the Federal Emergency Management Agency.

For more information, please feel free to contact Jimmy Tomac at (805) 781-4476.
