INDEPENDENT AUDITORS' REPORT

Board of Directors of Cambria Community Services District
Cambria, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Cambria Community Services District, as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Cambria Community Services District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Cambria Community Services District, as of June 30, 2022, and the respective changes in financial position and cash flows where applicable thereof, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Cambria Community Services District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Cambria Community Services District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Cambria Community Services District's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Cambria Community Services District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 10, the budgetary comparison information on page 43, the schedule of changes in OPEB liability and related ratios on page 44, the schedule of OPEB contributions on page 45, the schedule of proportionate share of net pension liability on page 46, and the schedule of pension contributions on page 47 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries of the basis financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2023, on our consideration of the Cambria Community Services District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

Our discussion and analysis of the Cambria Community Services District's (CCSD) financial performance provides an overview of the CCSD's financial activities for the fiscal year ended June 30, 2022. The Management's Discussion & Analysis is to be read in conjunction with the CCSD's financial statements, which follow this section.

The Cambria Community Services District is a multi-purpose special district formed on December 9, 1976. Formation took place under the Community Services District Law, Section 61000, et. seq. of the California Government Code. At the time of formation, it absorbed and combined the responsibilities of five existing special districts. These independently operated districts were as follows:

- The Cambria Community Services District - Moonstone Beach Drive area
- The Cambria County Water District
- The Cambria Fire Protection District
- The Cambria Garbage Disposal District
- San Luis Obispo County Service Area No. 6 - Street Lighting Service

The CCSD is a political subdivision of the State of California and operates under a Board of Directors-Manager form of government. A five-member Board of Directors governs it with each member serving a four-year term. The CCSD has a population of approximately 5,700 residents within its boundaries. Tourism in the summer months and on holiday weekends creates seasonal increases in the population. The CCSD provides the following services:

- Water
- Wastewater
- Fire Protection
- Facilities and Resources
- Parks and Recreation
- Resource Conservation
- Administration

Fund Financial Statements

The accounting system of the CCSD is organized and operated on a fund basis. A fund is considered a separate self-balancing entity with assets, liabilities, fund equity, revenues, and expenditures/expenses.

The basis of accounting depends on the fund. Basis of accounting refers to "when" revenues and expenses are recognized in the accounts and reported in the financial statements.

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

Governmental funds use the modified-accrual basis of accounting. Revenues are recognized when measurable and available as net current assets. Measurable means the amounts can be estimated or determined. Available means the amounts were collected during the reporting period or soon enough to finance the expenditures accrued for the reporting period.

Enterprise or business-like funds use the accrual basis of accounting. Revenues, expenses, assets and liabilities are recognized when the event happens.

Financial Statements

There are two government-wide financial statements that include all the CCSD's funds:

- Statement of Net Position
- Statement of Activities

The Statement of Net Position provides the basis for computing rate of return, evaluating the capital structure of the CCSD and assessing the liquidity and financial flexibility of the CCSD.

The Statement of Activities includes all the CCSD's individual functions presented using the accrual basis of accounting. One objective of the Statement of Activities is to report the relative financial burden of each of the CCSD's functions.

The remainder of the CCSD's financial statements is grouped into 2 categories:

- Governmental Activities
- Business-Type Activities

Governmental Activities

Governmental activities include the following Fund:

- General Fund

The General Fund includes the following Departments:

- Fire Department
- Administration
- Facilities and Resources
- Parks and Recreation

The CCSD's financial statements for governmental activities include six components:

- Balance Sheet
- Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position
- Statement of Revenues, Expenditures and Changes in Fund Balance

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

- Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
- Notes to the Basic Financial Statements
- Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual-Governmental Funds (Shown as Required Supplemental Information)

The Balance Sheet-Governmental Funds first presents the CCSD's assets (resources it controls that enable it to provide services), liabilities (financial obligations) and fund balance (in essence, what would be left over if the assets were used to satisfy the liabilities). The assets and liabilities are current in nature. Notably absent are capital assets. This is due to the statement being presented using the modified accrual basis of accounting. Fund balance is the difference between assets and liabilities. Fund balance is reported in up to five classifications to clarify Fund Balance reported as well as to provide additional information, as follows:

- Nonspendable - amounts that are not in a spendable form, such as Prepaid Expenses or Deposits.
- Restricted - amounts constrained to specific purposes by their providers through constitutional provisions or legislation.
- Committed - amounts constrained to specific purposes by the government itself using its highest level of decision-making authority.
- Assigned - amounts a government intends to use for a specific purpose.
- Unassigned - amounts that are available for any purpose. These amounts are only found in the general fund.

The Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position is the final component of the Balance Sheet. The reconciling items explain the differences in the accounting bases (the presence of capital assets and long-term liabilities in the government-wide financial statements, but their absence in the governmental funds).

The Statement of Revenues, Expenditures, and Changes in Fund Balances is the governmental funds' income statement, tracking the flow of resources in as Revenues and out as Expenditures. Revenues and Expenditures are not the only resources that flow in and out. Other financing sources (uses) identify transfers in and out of the governmental funds. Besides the fact that transfers are neither revenues nor expenditures, they are shown separately to assist the statement reader in assessing the balance between ongoing revenues and expenditures related to the basic operations of the CCSD. For this same reason, special items such as prior period adjustments (corrections of material errors related to a prior period or periods) are shown separately.

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

The Reconciliation of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities describes the differences between change in fund balance and change in governmental activities net position in the government-wide statement of activities. Items are individually described.

The Notes to the Basic Financial Statements are disclosures presented to assist the reader in understanding the information found in the financial statements.

The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - Governmental Funds compares the budgeted amounts to the actual amounts.

Business-Type Activities

Business-type activities include the following Funds:

- Water Fund
- Wastewater (Sewer) Fund

The Water Fund includes the following Departments:

- Water
- Resource Conservation
- Water Reclamation Facility

The CCSD's financial statements for business-type activities include four components:

- Statement of Net Position - Proprietary Funds
- Statement of Revenues, Expenditures and Changes in Net Position - Proprietary Funds
- Statement of Cash Flows - Proprietary Funds
- Notes to the Basic Financial Statements

The Statement of Net Position provides the basis for computing rate of return, evaluating the capital structure of the Water and Wastewater Funds and assessing their liquidity and financial flexibility.

The Statement of Revenues, Expenditures, and Changes in Net Position presents information which shows how the Water and Wastewater Fund's net assets changed during the year. All the current year's revenues and expenditures are recorded when the underlying transaction occurs, regardless of the timing of the related cash flows. The Statement of Revenues, Expenditures, and Changes in Net Position also measures the success of the CCSD's operations over the past year and determines whether the CCSD has recovered its costs through user fees, property taxes and other changes.

The Statement of Cash Flows provides information regarding the Water and Wastewater Fund's cash receipts and cash disbursements during the fiscal year. The statement reports cash activity in three categories:

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

- Operating Activities
- Capital and Related Financing Activities
- Investing and Non-Operating Activities

Required Supplementary Information

This section contains the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund.

This section also contains the Schedule of Changes in the Other Post-Employment Benefits (OPEB) Liability and Related Ratios, Schedule of OPEB Contributions, Schedule of the Proportionate Share of the Net Pension Liability, and the Schedule of Pension Contributions, as required by Governmental Accounting Standards Board (GASB) 75.

Overview of Activities During Fiscal Year Ending June 30, 2022

The Fire Suppression Benefit Assessment is a parcel assessment, it is not impacted by property value fluctuations. If approved annually by the CCSD Board of Directors, it can increase by the annual increase in the consumer price index, up to a maximum of 5.4%. This parcel assessment increased by \$14,000 (2.9%) in fiscal year 2021-2022, as compared to fiscal year 2020-2021. This parcel assessment represents approximately 18% of the Fire Department's revenue in the CCSD's fiscal year 2021-2022 budget.

The Water and Wastewater Standby or Availability Charge is a parcel assessment, based on parcel size. If approved annually by the CCSD Board of Directors, this parcel assessment generates approximately \$178,000 for Water Fund and \$119,000 for Wastewater Fund in revenue. This revenue is used for capital outlay and major maintenance projects in both the Water and Wastewater Funds.

A rate analysis for Water, Water Reclamation Facility (WRF) and Wastewater user fees and charges was completed in July 2018, with a 3-year rate increase implementation plan. The final rate increase became effective September 1, 2020. An updated rate analysis for Water, Water WRF and Wastewater user fees and charges was completed in May and June 2022, respectively. The CCSD Board adopted a 3-year user fee & charges rate increase, for Water and Wastewater, with future annual inflationary rate adjustments to Water, WRF and Wastewater. The first increase is effective July 1, 2022, for only Water and Wastewater user fees and charges. The increase in user fees and charges are to provide adequate support of operations & maintenance costs, capital improvement funding for an aging infrastructure, along with current and future debt service obligations.

As of June 30, 2022, the balances of the advances from the General Fund to Water Fund total \$157,726 and Wastewater Fund total \$293,059 (see Note #3).

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

For active employees, there are two different employee represented groups, International Association of Firefighters (IAFF), Service Employees International Union (SEIU) and the non-represented Management/Confidential (MCE) employees.

The following table shows the year-to-year increases and decreases in total salaries and wages:

Fiscal Year	Wages and Salaries	Year-to-Year Increase / (Decrease)
2017-2018	\$ 3,363,441	
2018-2019	\$ 3,141,181	\$ (222,260)
2019-2020	\$ 3,126,247	\$ (14,934)
2020-2021	\$ 3,366,890	\$ 240,643
2021-2022	\$ 3,643,369	\$ 276,479

The employees in each of these groups are paying the full employee portion of their pension, based upon their CalPERS service history, and cost-sharing of medical and dental insurance premiums. During fiscal year 2019-2020 both the SEIU and IAFF employees negotiated updated memorandum of understandings (MOU) for a five-year period and during fiscal year 2020-2021 the MCE employees negotiated salary increases for a three-year period. These updates include various salary and benefit changes, dependent on the job classification grouping. In addition, CCSD received a Staffing for Adequate Fire and Emergency Response (SAFER) grant, adding three limited term fire department employees. This SAFER grant began on January 1, 2022 and will continue over a three year period.

Retirement is the most significant cost related to employee benefits at the CCSD. The annual pension cost increased from \$931,910 in fiscal year 2020-2021 to \$1,192,326 in fiscal year 2021-2022, including a pension audit adjustment. There are various factors that will impact the retirement rates and cost in the future. While such factors include total salaries, inflation rates, returns on investments and the three agreement tiers with employees. The reporting requirements for pension plan was amended by GASB No. 67 & 68. To comply with these changes, a current period adjustment is required in each reporting period (see Note 7 and 8).

Employee health insurance is another significant cost related to benefits at the CCSD. The annual employee medical insurance cost decreased from \$421,310 in fiscal year 2020-2021 to \$387,662 in fiscal year 2021-2022. This is an overall decrease of \$33,648 or 8%. Agreements with MCE, SEIU and IAFF employees have also provided for increased premium contributions made by employees.

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

Retiree health insurance is also another significant cost related to employee benefits at the CCSD. These costs decreased from \$548,230 in fiscal year 2020-2021 to \$488,856 in fiscal year 2021-2022, including an Other Post-Employment Benefits (OPEB) audit adjustment. Agreements with MCE, SEIU and IAFF employees provide for increased premium contributions to be made by retirees and newly hired employees will receive a reduced health insurance premium benefit equal to the Public Employees’ Medical and Hospital Care Act (PEMHCA) minimum, which was \$143, during calendar year 2021 and is currently \$149, for calendar year 2022. These changes are expected to result in a significant reduction of retiree health insurance costs in the future. The reporting requirements for OPEB were amended by GASB No. 75. To comply with these changes, a current period adjustment is required in each reporting period (see Note 8).

Personnel costs represent 54% of the CCSD’s expenditures for fiscal year 2021-2022. Several steps, the most significant being discussed above, have been taken to control these costs.

Maintenance and repair costs increased from \$679,322 for fiscal year 2020-2021 to \$1,036,186 for fiscal year 2021-2022. These costs range from building repairs to vehicle repairs to pump repairs, the vast majority are related to maintenance and repair costs of the water and sewer infrastructure. Another factor contributing to the increased costs for FY 2021-2022 was the utility adjustment and manhole raising project in coordination with the County of San Luis Obispo’s road overlay project.

The following table shows the year-to-year increases and decreases in the CCSD’s total maintenance and repair costs:

Fiscal Year	Total Maintenance and Repair Costs	Year-to-Year Increase / (Decrease)
2017-2018	\$ 917,135	
2018-2019	\$ 620,496	\$ (296,639)
2019-2020	\$ 893,325	\$ 272,829
2020-2021	\$ 679,322	\$ (214,003)
2021-2022	\$ 1,036,186	\$ 356,864

There continues to be significant deferred maintenance in the Water and Wastewater Funds. The adopted 2018 and 2022 increases in user fees & charges will assist in funding the deferred maintenance in the Water and Wastewater Funds. CCSD continues to explore funding opportunities to address the General Fund’s deferred maintenance of the Veteran’s Hall and the ongoing maintenance of the Fiscalini Ranch and Open Space Lots.

**CAMBRIA COMMUNITY SERVICES DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2022**

The following table shows the year-to-year increases and decreases in the CCSD’s total cash and investments:

Fiscal Year	Total Cash and Investments	Year-to-Year Increase / (Decrease)
2017-2018	\$ 3,756,352	
2018-2019	\$ 3,136,367	\$ (619,985)
2019-2020	\$ 4,675,532	\$ 1,539,165
2020-2021	\$ 8,658,134	\$ 3,982,602
2021-2022	\$ 9,044,035	\$ 385,901

The significant increase in CCSD’s total cash & investments for fiscal year 2020-2021 is result of litigation proceeds received from the WRF settlement, and a minimal amount of capital project activity. During fiscal year 2021-2022, minimal capital project activity continued in the General, Water, WRF and Wastewater Funds, as much of this activity is for multi-year capital projects, scheduled to begin in fiscal year 2022-2023.

The Board of Directors approved the operating budget for fiscal year 2022-2023 on August 18, 2022. Projected activity for all funds is as follows:

- Water: a surplus of \$619,260
- Water Reclamation Facility: a surplus of \$19,772
- Wastewater (Sewer): a surplus of \$105,491
- General Fund (Governmental): a deficit of \$97,230, offset with unused surplus from previous fiscal year

CAMBRIA COMMUNITY SERVICES DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUND - BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2022

Total fund balances - governmental funds \$ 3,957,776

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation.

Capital assets at historical cost	\$	20,385,346
Accumulated depreciation		<u>(3,595,926)</u>

Net 16,789,420

Long-term liabilities: In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Compensated absences payable	\$	239,312
Loans payable		36,359
Other post employment benefits obligation		4,033,229
Net pension liability		<u>2,357,120</u>

Total (6,666,020)

In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In governmental-wide statement of activities, it is recognized in the period that it is incurred. (30)

Deferred outflows and inflows relating to pensions and OPEB: In governmental funds, deferred outflows and inflows of resources relating to pensions and OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions and OPEB are reported.

Deferred inflows of resources relating to pensions	\$	(2,013,964)
Deferred outflows of resources relating to pensions		1,065,730
Deferred outflows of resources relating to OPEB		538,448
Deferred inflows of resources relating to OPEB		<u>(909,812)</u>

(1,319,598)

Total net position - governmental activities \$ 12,761,548

The notes to basic financial statements are an integral part of this statement.

CAMBRIA COMMUNITY SERVICES DISTRICT
RECONCILIATION OF THE STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2022

Total net change in fund balances - governmental funds	\$ (446,384)
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which additions to capital outlay of \$123,758 is less than depreciation expense \$(188,691) in the period.	(64,933)
In the statement of activities, compensated absences are measured by the amounts earned during the fiscal year. In governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts paid). This fiscal year, vacation used exceeded the amounts earned by \$34,687.	34,687
In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was:	1,786
In governmental funds, repayments of long-term debt are reported as expenditures. In government-wide statements, repayments of long-term debt are reported as reductions of liabilities.	143,581
In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt were:	(40,545)
In the statement of activities, postemployment benefits are measured by the amounts earned during the fiscal year. In governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts paid). This fiscal year, the difference between accrual-basis postemployment benefit costs and actual employer contributions was:	(470,150)
In governmental funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This fiscal year, the difference between accrual-basis pension costs and actual employer contributions was:	<u>(67,888)</u>
Change in net position - governmental activities	<u><u>\$ (909,846)</u></u>

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Financial Reporting Entity

The Cambria Community Services District (District) is a multi-purpose special district established on December 9, 1976. The District is a political subdivision of the State of California and operates under a Board of Directors-Manager form of government. The District provides water, wastewater, fire protection, parks and recreation, open space, street lighting, conservation, and general administrative services.

There are no component units included in this report which meet the criteria of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statements No. 39, No. 61, No. 80, and No. 90.

B. Basis of Presentation

Fund Financial Statements:

The fund financial statements provide information about the District's funds. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. An emphasis is placed on major funds within the governmental and proprietary categories with each major fund displayed in a separate column.

Major Funds

The District reported the following major governmental funds in the accompanying financial statements:

General Fund – The primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The District reports the following major proprietary funds in the accompanying financial statements:

Water Fund - This fund accounts for the operation and maintenance of the District's water distribution system.

Wastewater Fund – This fund accounts for the operation and maintenance of the District's wastewater system.

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item “b” below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. All governmental funds are accounted for using a “current financial resources” measurement focus. With this measurement focus, only current assets and current liabilities generally are included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. All proprietary funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and all liabilities (whether current or non-current) associated with the operation of these funds are reported. Proprietary fund equity is classified as net position.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Basis of Accounting

In the government-wide statement of net position and statement of activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District defines available to be within 60 days of fiscal year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for principal and interest on long term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent that they have matured. Governmental capital asset acquisitions are reported as expenditures in governmental funds. Proceeds for governmental long-term debt and acquisitions under capital leases are reported as other financing sources.

Those revenues susceptible to accrual include taxes, intergovernmental revenues, interest, and charges for services. Certain indirect costs are included in program expenses reported for individual functions and activities.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal revenues and expenses. When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

D. Property Taxes

The County levies, bills, and collects property taxes and special assessments for the District. Property taxes levied are recorded as revenue in the fiscal year of levy, due to the adoption of the “alternate method of property tax distribution,” known as the Teeter Plan, by the District and the County. The Teeter Plan authorizes the Auditor/Controller of the County to allocate 100% of the secured property taxes billed, excluding unitary tax (whether paid or unpaid). The County remits tax monies to the District every month and twice a month in December and April. The final amount which is “teetered” is remitted in August each year.

Tax collections are the responsibility of the County Tax Collector. Taxes and assessments on secured and utility rolls, which constitute a lien against the property, may be paid in two installments; the first is due November 1 of the fiscal year and is delinquent if not paid by December 10; and the second is due on March 1 of the fiscal year and is delinquent if not paid by April 10. Unsecured personal property taxes do not constitute a lien against real property unless the tax becomes delinquent. Payment must be made in one installment, which is delinquent if not paid by August 31 of the fiscal year. Significant penalties are imposed by the County for late payment.

Property valuations are established by the Assessor of the County for the secured and unsecured property tax rolls. Under the provisions of Article XIII A of the State Constitution, properties are assessed at 100% of purchase price or value in 1978 whichever is later. From this base assessment, subsequent annual increases in valuation are limited to a maximum of 2 percent. However, increases to full value are allowed for property improvements or upon change in ownership. Personal property is excluded from these limitations, and is subject to annual reappraisal.

Tax levy dates are attached annually on January 1 preceding the fiscal year for which the taxes are levied. The fiscal year begins July 1 and ends June 30 of the following year. Taxes are levied on both real and unsecured personal property, as it exists at that time. Liens against real estate, as well as the tax on personal property, are not relieved by subsequent renewal or change in ownership.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Cash and Investments

The District pools the cash of all funds, except for monies that are reserved for specific purposes. The cash and investments balance in each fund represents that fund's equity share of the District's cash and investment pool.

Interest income earned on pooled cash and investments is allocated quarterly to the various funds based on month-end balances. Interest income on restricted cash and investments with fiscal agents is credited directly to the related fund.

The District's investments are carried at fair value. The fair value of equity and debt securities is determined based on sales prices or bid-and-asked quotations from Securities and Exchange Commission (SEC) registered securities exchanges or NASDAQ dealers. Changes in fair value are allocated to each participating fund.

For purposes of the statement of cash flows, the District has defined cash and cash equivalents to be change and petty cash funds, equity in the District's cash and investment pool, and restricted non-pooled investments with initial maturities of three months or less.

F. Accounts and Interest Receivable

In the government-wide statements, receivables consist of all revenues earned at fiscal year-end and not yet received. Receivables are recorded in the financial statements net of any allowance for doubtful accounts if applicable, and estimated refunds due. Major receivable balances for the governmental activities may include sales taxes, property taxes, grants, and other fees, if any. Business-type activities report utilities as their major receivables.

In the fund financial statements, material receivables in governmental funds may include revenue accruals such as franchise tax, grants, service charges, and other similar intergovernmental revenues that are both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with the modified accrual basis of accounting, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned and if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at fiscal year-end and not yet received. Utility accounts receivable and interest earnings comprise the majority of proprietary fund receivables.

G. Prepaid Items

Payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

H. Restricted Assets

Funds that are under the control of external parties are restricted.

I. Capital Assets

The accounting treatment over property, plant, and equipment depends on whether the assets are used in governmental fund operations or proprietary fund operations. The presentation and recording of governmental assets are described below.

Government-Wide Statements

In the government-wide financial statements, capital assets with a historical cost of \$5,000 or more are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets, if any, which are recorded at their estimated fair value at the date of donation. Estimated historical cost was used to value the majority of the assets.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets (Continued)

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is expensed over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Improvements other than buildings	5-20 years
Equipment and systems	3-10 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are capitalized when purchased.

J. Accumulated Compensated Absences

Compensated absences comprise unused vacation leave, sick leave, and compensatory time off, which are accrued as earned. Vacation can accrue no more than a maximum of two times their annual entitlement to vacation pay. Upon termination, all accumulated vacation hours can be paid for the regular employees. The District's liability for the current and long-term portions of compensated absences is shown in the government-wide Statement of Net Position for both governmental funds and proprietary funds. Only proprietary funds reflect the long-term portion in the fund financials report, the Statement of Net Position. The short-term portion is reflected for both governmental and proprietary funds in the fund financial statements. Computation was based on rates in effect as of the fiscal year-end.

K. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing source, and the proprietary fund types report long-term debt and other long-term obligations as liabilities.

L. Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, the District recognizes deferred outflows and inflows of resources.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. The District has two items which qualify for reporting in this category, refer to Note 7 and Note 8 for a detailed listing of the deferred outflows of resources the District has recognized.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the District that is applicable to a future reporting period. The District has two items which qualify for reporting in this category; refer to Note 7 and Note 8 for a detailed listing of the deferred inflows of resources the District has recognized.

M. Interfund Transactions

Following is a description of the three basic types of interfund transactions that can be made during the fiscal year and the related accounting policies:

1. Interfund services provided and used - transactions for services rendered or facilities provided. These transactions are recorded as revenues in the receiving fund and expenditures in the disbursing fund.
2. Reimbursements (expenditure transfers) - transactions to reimburse a fund for specific expenditures incurred for the benefit of another fund. These transactions are recorded as expenditures in the disbursing fund and a reduction of expenditures in the receiving fund.
3. Transfers - all interfund transactions which allocate resources from one fund to another fund. These transactions are recorded as transfers in and out.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Equity Classifications

Government-Wide Statements

GASB Statement No. 63 requires that the difference between assets and the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as either net investment in capital assets, restricted, or unrestricted.

Net position that is *net investment in capital assets* consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. *Restricted net position* is the portion of the net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. *Unrestricted net position* consists of net position that does not meet the definition of net investments in capital assets or restricted net position.

O. Fund Balances

Fund balance of the governmental fund is classified as follows:

Nonspendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance – represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purpose of the District.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Future Accounting Pronouncements

GASB Statements listed below will be implemented in future financial statements:

Statement No. 91	"Conduit Debt Obligations"	The provisions of this statement are effective for fiscal years beginning after December 15, 2021.
Statement No. 93	"Replacement of Interbank Offered Rates"	The provisions of this statement except for paragraphs 11b, 13, and 14 are effective for fiscal years beginning after June 15, 2020. Paragraph 11b is effective for fiscal years beginning after December 31, 2021. Paragraphs 13 and 14 are effective for fiscal years beginning after June 15, 2021.
Statement No. 94	"Public-Private and Public-Public Partnerships and Availability Payment Arrangements"	The provisions of this statement are effective for fiscal years beginning after June 15, 2022.
Statement No. 96	"Subscription-Based Information Technology Arrangements"	The provisions of this statement are effective for fiscal years beginning after June 15, 2022.
Statement No. 98	"The Annual Comprehensive Financial Report"	The provisions of this statement are effective for fiscal years beginning after December 15, 2021.
Statement No. 99	"Omnibus 2022"	The provisions of this statement are effective in April 2022 except for the provisions related to leases, PPPs, SBITAs, financial guarantees and derivative instruments. The provisions related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022. The provisions related to financial guarantees and derivative instruments are effective for fiscal years beginning after June 15, 2023.
Statement No. 100	"Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62"	The provisions of this statement are effective for fiscal years beginning after June 15, 2023.
Statement No. 101	"Compensated Absences"	The provisions of this statement are effective for fiscal years beginning after December 15, 2023.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employees' Retirement System (CALPERS) (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CALPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

R. Use of Estimates

The financial statements have been prepared in accordance with principles generally accepted in the United States of America and necessarily include amounts based on estimates and assumptions by Management. Actual results could differ from these amounts.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

S. Other Postemployment Benefits (OPEB)

For the purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – CASH AND INVESTMENTS

Investments are carried at fair value in accordance with GASB Statement No. 31. On June 30, 2022, the District had the following cash and investments on hand:

Cash on hand	\$ 600
Cash in checking accounts	1,778,982
Money market account	1,890,162
Local Agency Investment Fund (LAIF)	<u>5,374,291</u>
Total	<u>\$ 9,044,035</u>

Cash and investments listed above are presented on the accompanying basic financial statements, as follows:

Cash and investments	<u>\$ 9,044,035</u>
Total	<u>\$ 9,044,035</u>

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. These principles recognize a three-tiered fair value hierarchy. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District had investments in the Local Agency Investment Fund which is measured under Level 2. The District had investments in a money market account which not measured under Level 1, 2 or 3.

Investments Authorized by the California Government Code

The table on the following page identifies the investment types the District has that are authorized for the District by the California Government Code or the District's investment policy, whichever more restrictive, that addresses interest rate risk, credit risk, and concentration of credit risk.

Disclosure Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment is, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District's interest rate risk is mitigated is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30, 2022:

<u>Investment Type</u>	<u>Carrying Amount</u>	<u>Remaining Maturity (in Months)</u>			
		<u>12 Months or Less</u>	<u>13-24 Months</u>	<u>25-60 Months</u>	<u>More than 60 Months</u>
State Investment Pool (LAIF)	\$ 5,374,291	\$ 5,374,291	\$ -	\$ -	\$ -
Money market account	1,890,162	1,890,162			
	<u>\$ 7,264,453</u>	<u>\$ 7,264,453</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by nationally recognized statistical rating organizations. Presented below is the minimum rating required by (where applicable) the California Government Code, the investment policy, or debt agreements, and the actual rating as of the fiscal year ended June 30, 2022 for each investment type.

<u>Investment Type</u>	<u>Carrying Amount</u>	<u>Minimum Legal Rating</u>	<u>Rating as of Fiscal Year End</u>			<u>Not Rated</u>
			<u>AAA</u>	<u>AA+</u>	<u>AA-</u>	
			State Investment Pool (LAIF)	\$ 5,374,291	N/A	
Money market account	1,890,162					1,890,162
	<u>\$ 7,264,453</u>		<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,264,453</u>

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 2 – CASH AND INVESTMENTS (Continued)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of total District investments.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. Deposits are insured up to \$250,000.

At June 30, 2022, none of the District's deposits with financial institutions in excess of Federal depository insurance limits were held in uncollateralized accounts.

Investment in State Pool (LAIF)

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

NOTE 3 – INTERFUND TRANSACTIONS

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances receivable and payable

Advances receivable and payable constitute long-term borrowing between funds. Each advance carries a stated interest rate and has scheduled debt service payments. Interfund advances receivable and payable at June 30, 2022, are as follows:

<u>Fund</u>	<u>Advances Receivable</u>	<u>Advances Payable</u>
Major Governmental Fund:		
General Fund	\$ 450,785	\$ -
Proprietary Funds:		
Water Fund		157,726
Wastewater Fund		<u>293,059</u>
Totals	<u>\$ 450,785</u>	<u>\$ 450,785</u>

NOTE 7 – PENSION PLANS

A. General Information about the Pension Plans

Plan Descriptions

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plans, cost-sharing multiple employer defined benefit plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1959 Survivor Benefit, or the Pre-Retirement Option Settlement. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Miscellaneous		
	Classic	2nd Tier	PEPRA
Hire Date	Member Hired Prior to October 1, 2012	Hired from October 1, 2012 to December 28, 2012	New Member Hired On or after January 1, 2013
Benefit formula	3.0% @ 60	2.0% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50-63	50-63	52-67
Required employee contribution rates	8%	7%	6.75%
Required employer contribution rates	15.25% + \$371,752	8.65% + \$4,586	7.59% + \$22,960
	Safety		
	Classic	2nd Tier	PEPRA
Hire Date	Member Hired Prior to January 1, 2013	On or after December 28, 2012	New Member Hired On or after January 1, 2013
Benefit formula	3.0% @ 50	3.0% @ 55	2.7% @ 57
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50	55	57
Required employee contribution rates	9%	9%	13%
Required employer contribution rates	23.71% + \$125,763	20.64%	13.13% + \$9,273

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Contributions to the pension plan from the District were \$598,341 for the Miscellaneous Plan and \$299,932 for the Safety Plan for the fiscal year ended June 30, 2022.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 7 – PENSION PLANS (Continued)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2022, the District reported net pension liabilities for its proportionate shares of the net position liability was \$2,986,901 for the Miscellaneous Plan and \$873,224 for the Safety Plan. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At June 30, 2021 and 2020, the District's proportions were as follows:

	<u>Miscellaneous</u>	<u>Safety</u>
Proportion-June 30, 2020	0.11532%	0.02600%
Proportion-June 30, 2021	0.15730%	0.02488%
Change-Increase (Decrease)	<u>0.04198%</u>	<u>-0.00112%</u>

For the fiscal year ended June 30, 2022, the District recognized pension expense of \$1,260,215. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
District contributions subsequent to the measurement date	\$ 898,273	\$ -
Changes in assumptions		
Differences between expected and actual experience	484,138	
Net difference between projected and actual earnings on retirement plan investments		3,127,143
Adjustment due to differences in proportion	232,533	28,084
Changes in proportion and differences between District contributions and proportionate share of contributions		253,032
	<u>\$ 1,614,944</u>	<u>\$ 3,408,259</u>

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

\$898,273 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in the pension expenses as follows:

<u>Fiscal year ending June 30,</u>	<u>Amount</u>
2023	\$ (544,380)
2024	(590,542)
2025	(693,090)
2026	(863,576)
	<u>\$ (2,691,588)</u>

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 7 – PENSION PLANS (Continued)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions:

	<u>Miscellaneous and Safety</u>
Valuation Date	June 30, 2020
Measurement Date	June 30, 2021
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Projected Salary Increase	Varies by Entry Age and Service
Mortality (1)	Derived using CalPERS' Membership Data for all Funds

- (1) The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table please refer to the 2017 experience study report.

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of the discount rate for public agency plans (including PERF C), CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the current 7.15 percent discount rate is appropriate and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.65 percent is applied to all plans in the Public Employees Retirement Fund, including PERF C. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB Statement No. 68 section.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2022. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB Statement Nos. 67 and No. 68 calculations through at least the 2021-22 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits were calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 7 – PENSION PLANS (Continued)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1-10(a)	Real Return Years 11+(b)
Global Equity	50.0%	4.80%	5.98%
Global Fixed Income	28.0%	1.00%	2.62%
Inflation Sensitive	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
Total	<u>100.0%</u>		

(a) An expected inflation of 2.00% was used for this period.

(b) An expected inflation of 2.92% was used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in Discount Rate

The following represents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.15 percent) or 1- percentage point higher (8.15 percent) than the current rate:

	Miscellaneous	Safety
1% Decrease	6.15%	6.15%
Net Pension Liability	\$ 5,478,131	\$ 1,945,073
Current Discount Rate	7.15%	7.15%
Net Pension Liability	\$ 2,986,901	\$ 873,224
1% Increase	8.15%	8.15%
Net Pension Liability	\$ 927,436	\$ (7,167)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

C. Payable to the Pension Plan

At June 30, 2022, the District had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2022.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 8 – OTHER POST EMPLOYMENT BENEFITS

Plan Description

Plan administration. The District sponsors healthcare coverage under the California Public Employees Medical and Hospital Care Act ("PEMHCA"), commonly referred to as PERS Health. PEMHCA provides health insurance through a variety of Health Maintenance Organization (HMO) and Preferred Provider Organization (PPO) options. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits provided. Employees may retire directly from the District under CalPERS and receive a District contribution. The District contributes the PEMHCA minimum employer contribution. The contribution is \$143 per month for retirees in 2021 and \$149 per month for retirees in 2022. Survivor benefits are available.

Employees hired before October 1, 2012 are eligible for a supplemental benefit. The District contribution is limited to 85% of the lowest cost PERS health plan, including the PEMHCA minimum. The supplemental benefit includes dependents and will continue for the lifetime of the employee and, if eligible, the surviving spouse.

Employees Covered

As of the June 30, 2021 actuarial valuation, the following current and former employees were covered by the benefit terms under the District's Plan:

Active plan members	28
Inactive employees or beneficiaries currently receiving benefits	33
Total	61

The District currently finances benefits on a pay-as-you-go basis.

OPEB Liability

The District's OPEB liability was measured as of June 30, 2022 and the total OPEB liability used to calculate the OPEB liability was determined by an actuarial valuation dated June 30, 2021, standard actuarial update procedures were used to project/discount from the valuation date to the measurement date.

Actuarial assumptions. The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases	3.00%
Inflation rate	2.50%
Medical cost trend rate	5.20% for 2022 through 2034; 5.00% for 2035 through 2049; 4.50% for 2050 through 2064; and 4.00% for 2065 and later years

Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection.

Actuarial assumptions used in the June 30, 2021 valuation were based on a review of plan experience during the period July 1, 2019 to June 30, 2021.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. To achieve the goal set by the investment policy, plan assets will be managed to earn, on a long-term basis, a rate of return equal to or in excess of the target rate of return of 3.69 percent.

CAMBRIA COMMUNITY SERVICES DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 8 – OTHER POST EMPLOYMENT BENEFITS (Continued)

Discount rate. GASB Statement No. 75 requires a discount rate that reflects the following:

- a) The long-term expected rate of return on OPEB plan investments — to the extent that the OPEB plan's fiduciary net position (if any) is projected to be sufficient to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return;
- b) A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher — to the extent that the conditions in (a) are not met.

To determine a resulting single (blended) rate, the amount of the plan's projected fiduciary net position (if any) and the amount of projected benefit payments is compared in each period of projected benefit payments. The discount rate used to measure the District's total OPEB liability is based on these requirements and the following information:

Reporting Date	Measurement Date	Municipal 20 Year High Grade Rate Index	Discount Rate
June 30, 2021	June 30, 2021	1.92%	1.92%
June 30, 2022	June 30, 2022	3.69%	3.69%

Change of assumptions. For the June 30, 2022 measurement date, the discount rate was increased from 1.92% to 3.69% and the inflation rate decreased from 3.00% to 2.50%.

Changes in the OPEB Liability

	Total OPEB Liability
Balance at June 30, 2021 (Valuation Date June 30, 2021)	\$ 7,655,219
Changes recognized for the measurement period:	
Service cost	320,683
Interest	153,564
Difference between expected and actual experience	(406,932)
Changes of assumptions	(1,242,727)
Benefit payments	(274,841)
Net Changes	(1,450,253)
Balance at June 30, 2022 (Measurement Date June 30, 2022)	\$ 6,204,966

Sensitivity of the OPEB liability to changes in the discount rate. The following presents the OPEB liability, as well as what the OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.69 percent) or 1-percentage-point higher (4.69 percent) than the current discount rate:

	1% Decrease 2.69%	Current Rate 3.69%	1% Increase 4.69%
OPEB Liability	\$ 7,138,096	\$ 6,204,966	\$ 5,450,348

CAMBRIA COMMUNITY SERVICES DISTRICT

JUNE 30, 2022

NOTE 8 – OTHER POST EMPLOYMENT BENEFITS (Continued)

Sensitivity of the OPEB liability to changes in the healthcare trend rates. The following presents the OPEB liability, as well as what the OPEB liability would be if it were calculated using a healthcare cost trend rates that are 1-percentage point lower (4.20 percent) or 1-percentage-point higher (6.20 percent) than the current healthcare cost trend rates:

	1% Decrease (4.20%)	Healthcare Cost Trend Rate (5.20%)	1% Increase (6.20%)
OPEB Liability	\$ 5,329,842	\$ 6,204,966	\$ 7,312,736

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2022, the District recognized OPEB expense of \$998,150. As of the fiscal year ended June 30, 2022, the District reported deferred outflows and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 112,333	\$ 345,276
Change in assumptions	716,049	1,054,435
	<u>\$ 828,382</u>	<u>\$ 1,399,711</u>

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as expenses as follows:

<u>Fiscal year Ending June 30,</u>	<u>Amount</u>
2023	\$ 374,312
2024	(59,260)
2025	(236,514)
2026	(249,948)
2027	(249,948)
2028	(149,971)
	<u>\$ (571,329)</u>

NOTE 9 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS

There were no excess of expenditures over appropriations for the fiscal year ended June 30, 2022.

NOTE 10 – CONTINGENCIES AND COMMITMENTS

According to the District's staff and attorney, no contingent liabilities are outstanding and no lawsuits are pending of any real financial consequence.

NOTE 11 – SUBSEQUENT EVENTS

On October 4, 2022, the District issued \$12,175,000 of Wasterwater Revenue Certificates of Participation Series 2022A with interest rates of 4.625% to 5.25%, and a final maturity in 2052.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Cambria Community Services District
Cambria, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and the business-type activities and each major fund of the Cambria Community Services District (the District), as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 16, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
