Public Comments are just that ---- for the Public

They are not just as input to elected officials

They should be read aloud to be heard by all attending just as verbally presented comments are heard by all

Board Meeting - August 8, 2024

The Board of Directors will hold a regular meeting on Thursday, August 8, 2024, at 1:00 p.m. at the Veterans' Memorial Hall located at 1000 Main Street Cambria, CA 93428, and via Zoom Webinar.

Members of the public who wish to comment on matters before the CCSD Board can submit written correspondence to boardcomment@cambriacsd.org.

Note: Written correspondence will not be read into the record during the Board meeting; however, correspondence received at least one hour prior to the meeting commencement will be forwarded to the Board of Directors and posted on the District's website as part of the official meeting record. Your comments and information will become part of the official public record. If you do not want your personal information included in the official record, please do not include your address and/or phone number.

Subject: For Written Comment
Date: Friday, August 9, 2024 1:34:13 PM

For posting, August 8 meeting:

Item 3

PUBLIC COMMENT

Please provide a report on how both Cambria's fire engines came to be out of service at the same time, during fire season. While it was generous of Paso Robles to provide one of its fire engines, during fire season, all engines should be available in working order. Please explain what happened to lead Cambria to this point, and what is being done to assure that it never happens again.

Item 4a:

PUBLIC COMMENT

Perhaps monthly oversight of the district's ongoing projects is adequate. Projects such as the Stuart Street tanks, the San Simeon water and effluent lines, the Sustainable Solutions Turnkey projects at the Wastewater Treatment plant, water meter replacement, and the Coastal Development Permit application for the EWS/SWF/WRF aren't usually urgent and can be managed monthly.

When an urgent issue arises, however, the board should have the best quality on-line access for public participation. Those meetings, at which significant action may be taken, should be archived in a logical and convenient way for the public to consult. Please require that AGP Video provide the live streaming and video recording and archiving for all board meetings. Thank you.

Item 5C

PUBLIC COMMENT

Mr. Aguirre mentions working with biological consultant Kevin Merk in his report. What is the status of Mr. Merk's biological studies, which were due two years ago, and Mr. Green promised in June? When can the public expect to see these long overdue studies, which are a crucial element of the EWS/SWF/WRF Coastal Development Permit application, which remains incomplete? Thank you.
